

# How to find photos in the digital asset management system (DAM)

Our photo folks in New York have created a large library of bird and other Audubon-related photos that you are free to use on your website. It's an invaluable resource to fill your new site's big, beautiful photo areas.

1. You can access the DAM at <http://audubon.netx.net>.
2. If you do not yet have an account, contact Sabine Meyer ([smeyer@audubon.org](mailto:smeyer@audubon.org)) and he will get you set up.
3. Once you're logged in, you can use the attached PDF instructions below to search for and download photos for use on your website and other Audubon projects.

Please note:

**The photos in the Audubon DAM are to be used strictly for Audubon branded projects and not to be shared with non Audubon entities.**

They can be used in print, online, and in fundraising materials. The photographs cannot be sold as prints and cannot be used commercially or for product licensing purposes. If in doubt, please contact Photo Editor Sabine Meyer at [smeyer@audubon.org](mailto:smeyer@audubon.org)

**See also: [Image size/crop requirements & other photo guidelines](#) for more photo usage guidelines and tips.**
